# A SITUATION REPORT ON OUR ACQUISITION OF ADVANCED TECHNOLOGY AND INTERACTION WITH ALIEN CULTURES

by O.H. KRILL

## The Men in Black

All things considered, UFO research has become pretty much of a circus today, and the most intriguing and controversial sideshow skirting the edges is the question of the "silencers," or the mysterious "Men in Black." There is a strong subliminal appeal in these accounts of visits by mysterious dark-suited figures (I have been visited myself, as have others I've known) attempting to silence UFO witnesses. A typical situation would be that a witness has a UFO sighting or UFO-related experience. Shortly thereafter he is visited by one or more "odd"-looking men who relate to him the minutest details of his experience, even though he has as yet told no one for fear of ridicule or other reasons.

The men warn him about spreading the story of his experience around and sometimes even threaten him personally, sometimes obliquely, sometimes directly. Any evidence, if it exists, is confiscated in one way or another. Sometimes the visit is for some totally meaningless reason and the subject of UFOs is hardly mentioned, if at all. But again, the men all seem to look alike.

We actually seem to find ourselves in close proximity to beings who obviously must be directly connected in some way with the objects themselves or the source behind them, yet they seem to be functioning unobtrusively within the framework of our own everyday existence.

The classic conception of an MIB is a man of indefinite age, medium height and dressed completely in black. He always has a black hat and often a black turtleneck sweater. They present an appearance often described as "strange" or "odd." They speak in a dull monotone voice, "like a computer," and are dark-complected with high cheekbones, thin lips, pointed chin, and eyes that are mildly slanted.

The visitors themselves are often on absurd missions. They have reportedly posed as salesmen, telephone repairmen or representatives from official or unofficial organizations. Their mode of transportation is usually large and expensive cars -- Buicks or Lincolns, sometimes Cadillacs, all black, of course.

I might note at this point that their physical appearance also has included beings that have pale-greyish skin, and that some of them have been seen to have blond hair, yet they wear the

clothing and drive the cars previously described.

Their cars often operate with the headlights off, but ghostly purple or greenish glows illuminate the interior. Unusual insignia have been seen emblazoned on the doors and the license plates are always unidentifiable or untraceable.

The fabric of their clothes has been described as strangely "shiny" or thin, but not silky -- almost as if they have been cut from a new type of fabric.

Their often mechanical behavior has caused them to be described by some as being like robots or androids (think back to the Dulce lab).

A lot of descriptions of some of these "folks" are pretty bizarre. A businessman's family in Wildwood, New Jersey, was visited by an unusually large man whose pants legs hiked up when he sat down, revealing a green wire grafted onto his skin and running up his leg.

There are other cases of MIB appearing on the other side of a wet, muddy field after a heavy rain, but having no mud whatever on their brightly shined shoes and in the bitter cold, out of nowhere, wearing only a thin coat. Their shoes and wallets all seem new and hardly broken in.

They are not alone. They seem to have faceless conspirators in the nation's post offices and phone companies. Researchers and witnesses often report their mail going astray at an unusually high rate and being bothered by bizarre phone calls where they are spoken to by metallic, unhuman-sounding voices.

Unusual noises on the phone, intensifying whenever UFOs are mentioned, and voices breaking in on conversations, have all led many people to suspect that their phones are being tapped.

One can't discuss the MIB for long without mentioning the name of John A. Keel, an author who has written much about them. Keel has done more than any other writer to publicize this bizarre aspect of the UFO situation. Keel suggests that the UFO are part of the environment itself and come from another time-space continua; that most of the UFO phenomena is psychic and psychological rather than physical. Well, I personally would not define it that way, although those two components are certainly deeply involved in what's going on.

The first noted appearance of the MIB was in 1947, at the scene of the Maury Island incident, where some debris was ejected from a disk, and subsequently recovered by officials, who loaded them on an Army bomber which crashed on takeoff.

To illustrate a little how bizarre some of the incidents are regarding the MIB, I have assembled a short list of some of the more interesting factors in some cases:

- An ex-Air Force man is gassed and interrogated by MIB after he has learned classified NASA secrets.
- Closeup photos of UFOs were seized from a teenager who is also directly threatened by MIB.
- MIB sighted in the lobby of the U.S. State Department leave a mysterious artifact.

- MIB pose as Air Force officers to silence witnesses.
- MIB tries to buy before-hours Coke and sings to birds in trees.
- MIB disintegrates a coin in a witness' hand and tells him that his heart will do the same if he talks.

**********

Throughout all this information, I have neglected to mention some aspects of the psychology of the Greys. Dr. Paul Bennewitz, in his original report to the government entitled "Project Beta," goes into some detail, which I will now discuss:

- The alien, either through evolvement or because the humanoid types are "made," will exhibit tendencies for bad logic. They appear to have more frailties and weaknesses than the normal Homo Sapien.
- They are not to be trusted.
- Because of the aliens' apparent logic system, a key decision cannot be made without higher clearance. All are under control of what they call "The Keeper," yet it would appear that even this is not the final authority. Delays as long as 12-15 hours can occur for a decision.
- Because of this apparent control, individual instantaneous decision-making by the alien is limited. If the "plan" goes even slightly out of balance or context, they become confused. Faced with this, possibly, the humanoids would be the first to run.
- Psychologically their morale is near disintegration. There is pronounced dissension in the ranks -- even with the humanoids.
- Because of their own internal vulnerability mind-wise to each other, there is a basic lack of trust between them.
- They appear to be totally death-oriented, and because of this, absolutely death-fear oriented. This is a psychological advantage.
- The prime, and weakest area discovered, probed and tested is exactly what they have used, thinking it their key strength -- that being the manipulation of and control of the mind. Manipulated in reverse-psychology they face a situation where they have a vulnerable, integrated weakness.
- They totally respect force.

Grey Physiology and Anatomy

The approximate height of most specimens is between 3.5 and

4.5 feet. The head, by human standards, is large in comparison with the body. Facial features show a pair of eyes described as large, sunken or deeply set, far apart or distended more than the human, and slightly slanted as Oriental or Mongoloid. No ear lobes or apertures on the side of the head were seen. The nose is vague. One or tow holes have been mentioned. The mouth area is described as a small slit or fissure. In some cases there is no mouth at all. It appears not to function as a means for communication or for food. The neck area is described as being thin, in some instances not being visible at all because of the tightly-knit garment. Most observers describe these humanoids as being hairless. Some of the bodies recovered have a slight hair-patch atop the head. Others have what appears to be like a silver skullcap. There were no breathing attachments or communications devices. This suggests telepathy with higher intelligence. In one instance there was an opening in the right frontal lobe area, revealing a crystalline network. This network implies the development of a third brain.

The arms are described as long and thin, reaching down to the knee section. The hangers each contain four fingers, with no thumbs. Three fingers are longer than the other. Some are very long. Some are very long. Others are very short. No description is available of the legs and feet. Some pathologists indicate that that section of the body was not developed as we would anticipate, showing that some of these beings were adapted to life in the water. There was a webbing effect between the fingers on most of the specimens.

According to most observers, the skin is grey. Some claim it is beige, tan or pinkish-grey. No reproductive organs or capabilities were discovered. No phallus. No womb. Confirms cloning mentioned by other sources. The humanoids appear to be from a mold, sharing identical racial and biological characteristics. There is no blood as we know it, but there is a fluid which is greyish in color.

**********

The "Taxonomy of Extra-Terrestrial Humanoids," another offering by George Andrews, yields some other observations:

- Working under the instructions of the humanoids from Rigel (the Greys), CIA and former Nazi scientists have developed and deployed malignant strains of bacteria and viruses, including AIDS, in order to exterminate undesirable elements of the human population.
- The Greys are almost entirely devoid of emotions, but can obtain a "high" by telepathically tuning in the different kinds of intense human emotion, such as ecstasy or agony. (Does that explain why UFOs have always been seen in regions of war and human conflict?)
- There are over 1,000 humans in the United States

alone who are the offspring of intergalactic or extragalactic beings and terrestrial humans. (The son of an acquaintance of [deleted in original] is one.)

- Throughout recorded history, as well as during prehistoric times, there has been constant genetic manipulation of and interbreeding with humans in order to breed out the less evolved simian traits. The Nordic races have participated in this from the beginning, and we are as much a part of them as we might suppose.
- Greys have the ability to camouflage themselves as tall Blonds through mental energy projection. Blonds never project themselves as Greys. Some Blonds seen with the Greys are physically real, but are prisoners of the Greys who have either paralyzed them or have destroyed their ability to teleport through time and other dimensions. Note: A lot of the material obtained by George Andrews has as its source a Blond that is a time traveler that escaped the Grey takeover of their system.
- Both Blonds and Greys have the ability to disintegrate matter into energy and then reintegrate the energy back into matter. This ability allows them to pass through walls and to transport abductees out of their cars with the doors still locked.
- The original Rigelians were the Blonds until they were invaded by the Greys, a parasitic race, who took over and interbred with them. The original Rigelians were the ones who seeded the earth. It is because of this common ancestry that terrestrial humanity is of such interest to both the Blonds and the Greys.
- Terrestrial human females can be impregnated either on board ship or while they sleep in their homes. Males need not be manifested in visible form for this to occur.
- The Blonds now habitate the Procyon system. The conflict between the Blonds and the Greys is in a state of temporary truce, although the conflict between the Rigelian and the Sirius system is being fought actively.
- The Blonds with speech abilities will respond violently if attacked or threatened, but the telepathic ones will respond peacefully.
- Blonds were sometimes mistaken for angels in earlier centuries. They do not seem to age, and consistently appear to be from 27 to 35 human years old.

Confused? Well, now you can see why the natural diversity of the way things are are hard to sort out for the average researcher. The probability that this information is true or partially true remains fairly high, based on analysis of what we know about abductions and general contact between humans and EBEs that has been documented.

Real Esoterica -- Sirius and the MIB

Let's regress for a moment back to the MIB. According to John Keel, the MIB often state that they are representatives of the "Nation of the Third Eye."

Based on some of the info we have already researched, it is apparent that Sirius has been in contact with us for a long time. According to George Hunt Williamson (one of the early contactees) in his book "Other Tongues, Other Flesh," the earth allies of Sirius, i.e., the secret societies, use the Eye of Horus as an insignia. This symbol has also been seen on the MIB. Secret societies believe that there is a Great White Lodge on earth. They call it Shamballa -- and consider it to be the spiritual center of the world. Now, theosophists such as Alice Bailey say that the Great White Lodge is on Sirius. If the All-Seeing-Eye is a symbol of Sirius' earth-allies and the MIB wear that symbol, and if Shamballa represents the Great White Lodge on earth -- then the MIB are emissaries of Shamballa. Sirius and Shamballa are two sides of the same coin. This is verified in the book "The Undiscovered Country," by Stephen Jenkins. Jenkins was told by Buddhist priests that Shamballa was located in the constellation of Orion.

The entrance to Shamballa on earth is usually placed in the trans-Himalayan region. Some assert it is in the heart of the Gobi Desert (where there have been allegations of crashed disks and bases). According to the explorer Nicholas Roerich, there are caves in the Himalayan foothills that have subterranean passages. In one of the these passages, there is a stone door that has never been opened, because the time for its opening has not yet arrived. In 1930, Doreal founded the Brotherhood of the White Temple. He says that the entrance to Shamballa is far underground. he goes on to say that space bends around Shamballa, and that there is a warp which leads into another universe.

Let's get back to something we can have more of a direct handle on. Many times psychics have been called upon by investigative authorities to evaluate situations, and in many cases what they have contributed has been very helpful.

Well, there you have that little presentation. I don't know what exactly to make of it, but there it is. Certainly a non-UFO implication here, however, it only relates to THREE mutilations. How about the other 10,000 -- most of which have the UFO connection? What did I tell you about a multi-level reality?

**********

At this point, I will put some references and excerpts from some volumes that I believe are relevant to all the things we've been talking about. Where I feel it is applicable, I will comment on them.

"The Goblin Universe"

(p222) The ability to materialize mental constructs is not unknown. Suppose one creates a field with the mind that is strong enough to attract supercharged particles. The particles are real but unstable in their assemblage since the stability depends on the intermediate mental component.

(p223) Physical aspect of UFOs and other phenomena lie in the behavior of electromagnetic fields.

(p124) If all UFO incidents were chance encounters, someone would have obtained a filmed record or a series of stills years ago. The only way that such episodes can be engineered so that they remain total mysteries is for the entities to have advance knowledge of any situation before it occurs.

(p117, referencing John Keel) These entities labor to cultivate belief in various frames of reference, and then they create new manifestation which support those beliefs.

(p120) Illness is common after close contact with some beings.

(p122) Guy Underwood classified primary geomagnetic currents into three classes: water lines, aquastats, and track lines. Some magnetic signals appear as spirals, others are linear. Gnats and flies congregate above magnetic patterns.

**********

"Extra-Terrestrials Among Us"

(p2-3) On several occasions after UFOs flew over missile sites, it was found that the targeting of the missiles had changed, and the warheads had to be replaced.

(p3) On 22 June 1980 a UFO that was 10 miles in diameter was reported over the Kuwait oil fields.

(p4) On July 30, 1985, a UFO over Mongolia that was 10 km in diameter was reported heading south. It was sighted by a Chinese jet and reported in the "Japan Times." The Unites States ignored this report.

(p8) JANAP-146 specifies up to 10 years in prison and $10,000 in fines for anyone in government service who makes unauthorized public statements about UFO phenomena. The British Official Secrets Act makes similar provisions.

(p9) Many routes of UFOs take the form of an isosceles triangle.

(p16) On September 14, 1978, a UFO as big as an ocean liner flew over Italy, and over Rome on the 15th and 16th.
Comment: This was two weeks before Pope John Paul I was found dead under suspicious circumstances. He was killed between September 28-29. Autopsy was refused. It was rumored he intended to reveal the Fatima message of 1917.

(p 20) UFOs dart around in daylight at speeds which cannot be seen.

(p22) An individual having one CE experience usually has another.

(p24) There is no basis to support psychiatric pathology for UFO witnesses.

(p24) Dr. Brian T. Clifford (Pentagon) announces on October 5, 1982, that contact between U.S. citizens and extraterrestrials on their vehicles is illegal. Title 14, Section 1211 of the Code of Federal Regulations (adopted July 16, 1969, before the first manned lunar landing) says that anyone guilty of this becomes a wanted criminal to be jailed for one year and fined $5,000. The NASA administrator is empowered to determine WITH OR WITHOUT A HEARING that a person has been "ET-exposed" and impose INDETERMINATE quarantine under armed guard, which cannot be broken even by court order.

(p89) Mars has a history of transient phenomena.

(p90) Temporary brilliant spots on Mars were reported by astronomers in 1890, 1892, 1900, 1911, 1924, 1937, 1952, 1954, 1967, and 1971. The distribution was non-random. Intensely dark

spots, transient in nature, were reported on Mars in 1925, 1952, and 1954.

(p93) About 33% of abductees are able to remember the experiences without hypnotic regression. 66% of the abductees were alone when abducted.

(p94) Some abductees did not return but vanished permanently or were found dead after a UFO encounter.

(p25) Records of the 687 B.C. battle between the Assyrians and the Hebrews indicate that "a blast from heaven" reduced the bodies of 185,000 Assyrians to ashes but left their clothes intact.

(p145) Morris K. Jessup died under mysterious circumstances after a copy of his book "Case for the UFO" was sent to the Chief of the Office of Naval Research (ONR) in Washington.

(p146 -- comments from "Case for the UFO")

- Falls from the sky of flesh, blood, reptiles, etc., were due to either spoiled food or cleaning of holding tanks.
- Comments describe TWO different space races who share the planet with us without our knowledge. They are not visitors -- they have been here longer than we have. They feel more at ease in the ocean.
- The little men were almost wiped out by a serpent race identified only as the "S-men." S-men are ravenous for red meat, extremely materialistic, and are greedy for power. Comment: Sounds like the Deros of Shavarian fame.

(p147) Thanks to Allen Dulles in partnership with Reinhard Gehlen, the Gestapo was transplanted intact into the United States system as the CIA, without the knowledge or consent of American citizens. Comment: Remember Reagan placing wreaths on graves of SS stormtroopers at the 40th anniversary of WWII? Roots of that symbolic gesture go deep.

(p147) Reference the Intelligence Identity Protection Act of 1981: Freedom to speak about anything but the CIA. Some claim that concentration camps have already been built. Activation was sealed by Executive Order Rex 84. The next REX exercise in in 1988.

(p148) Jessup: "I believe that space structures of 5-10 miles in diameter are sufficiently large to produce intelligently directed storms."

(p150) Alleged alien comment in annotated edition of "Case for the UFO": "Men frozen helpless make good prey."

(p151) Dr. James E. McDonald thought that the Federal Power

Commission was evading the evidence concerning UFO involvement in the total power failure that paralyzed New York on July 13, 1965, and dared to say so in front of a Congressional committee.

(p152) On June 13, 1971, James E. McDonald was found dead under mysterious circumstances, shot through the head with a pistol by his side.

(p153) Murder disguised as suicide is one of the well-known specialties of the CIA.

(p153) There is ample documentation suggesting that among the highest-priority covert operations of the CIA are those supplying heroin to the Mafia. The "war on drugs" is in fact a war on the independent drug dealer who constitutes a threat to the Mafia monopoly. Comment: Additional ways to subdue the population or eliminate undesirables?

(p156) Karen Silkwood's murder disguised as auto accident.

(p159) George Adamski, contactee in the 1950s had a special government passport. Possible CIA disinformation agent.

(p162) Although mutilations were reported in England as early as 1904-1905, ("Winter of Weirdness"), the large-scale operations there began in 1973.

(p163) A rancher and his sons saw a UFO as big as a hotel which was accompanied by four smaller ones. Rectangular in shape, 300-400 feet long, and 60 feet high. A helicopter approached it and turned into a small UFO.

(p163) Phantom cars appear on roads, follow people, and disappear.

(p163) A rancher and his wife looked at a UFO 5/8 of a mile away and reported that two appendages emerged from the egg-shaped object.

(p164) Apparently UFOs have the capability of invisibility.

(p164) Materialization of a Bigfoot before a witness.

(p164) Dematerialization of Bigfoot before witness who shot it with a 16-gauge shotgun at point-blank range into its stomach.

(p166) On August 21, 1975, a sheriff was chasing an unmarked helicopter in his plane in southwestern Nebraska at 0430 when the lights on the helicopter went out, and the only thing seem on the ground was a missile silo.

(p166) About the time mutilations began in earnest (1973 wave), a new branch of science was beginning to develop -- biogeochemistry -- analysis of mineral and oil deposits by

analysis of tissues of herbivorous animals.

(p168) An elderly lady in Arkansas in 1979 injured herself and was cut during a fall. The injuries were repaired by two aliens, who gave her a piece of metal with pyramids and six-pointed stars on it. The aliens told her they "consumed juice," but not the kind consumed by humans. Six weeks later, she was out looking for her dog and spotted a horse lying on its side, unconscious.

Two men in white, dressed like surgeons, were at work on the horse. There were two Air Force helicopters parked in the clearing, two men in Air Force uniforms, and the same two aliens who had helped her after her fall. The lady was spotted by the group and she was overtaken by a helicopter which flashed a blue light on her which burned her clothing. Help arrived as the helicopter retreated, and she was brought to the local hospital. People having nothing to do with the hospital staff began turning up to question her. After release she was harassed at all hours by strangers who insisted on questioning her, repeating the same questions over and over again. The couple moved to a different state, only to have it start all over again. MUFON began investigating this case, but as of 1986 had not yet made public its conclusions. Research into the case began in 1980.

(p171) Tissue samples taken from a carcass revealed the presence of chlorpromazine, a tranquilizer.

(p171 comment by Gabe Valdez) "Whoever is doing these mutilations are highly organized and have a lot of resources."

(p172) The theory of biogeochemical basis for the mutilations fails to account for the fact that mutilations are worldwide.

(p174) When FBI agent Rommel was given $50K to investigate the mutilations in one district in New Mexico, all mutilations in that district stopped during the year.

(p177) The Condon Report, Rommel Report, and the Warren Report all have a resemblance.

(p177) The human tendency to avoid facing unpleasant facts may allow parasitic entities to "farm us."

(p178) A seven-year-old heifer was found whose unborn calf had been removed with breaking the placental bag.

(p181) U.S. Senate lied to by Pentagon in 1968 during Senate hearings on UFOs.

(p200) In an anonymous letter to a Denver paper on April 8, 1983, it was told that the mutilations are being done by a secret government group called Delta. Animal parts are used to test effects of germ warfare and poison (cyanide and dioxin) they are testing on civilians in America. Testing is associated with black

helicopters. Helicopters are also used to ferry heroin and cocaine. Delta bases said to be all underground on Indian Reservations. HQ for operations and where a lot of choppers are based in 28 miles east of Albuquerque on I-40, then 14 miles north on a dirt road into the Laguna Indian Reservation. Comment: Disinformation attempt?

(p204, UPI story, February 2, 1984) Dr. James Womack at Texas A&M University announced his discovery that humans share "perfect match" chromosomes with cattle. The perfect match is with portions of the 21st chromosome pair, a strand known to carry characteristics of Mongolism or Down's Syndrome, associated with mental retardation. Dr. Womack says, "We must have more in common than previously believed."

(p205, 1984 letter) A recent arrival on the nutritional scene is protomorphogens, or glandulars -- ground up glands of cattle. If one takes these for a year you get "hooked" on them. Your own glands stop producing hormones.

Many EBEs have no alimentary canals and no glands.

In some cancer clinics, these glandulars are used to treat cancer victims, and so are glands from human fetuses.

(p206) What is happening with the mutilations would make sense in human terms if the location on which the cattle grazed was important, or the parts taken could be used geobiologically (which they aren't).

(p208) UFOs are: Extraterrestrial, ultraterrestrial, interdimensional, and time travelers.

(p208) Some UFOs behave as if the UFO itself was a living organism. Comment: Refer to Trevor James Constable's book "Sky Creatures," for a discussion of biological aeroforms, of "Flying Saucers at Etibi-Raa," by Wendell Stevens for a discussion of just that subject.

(p208) Entities with cyborg-like traits, having both mechanical and biological features, turn up quite frequently in reports.

(p208) It is odd that among the viruses there are some that look like UFOs, like T. Bacteriophage. Do some UFO have the ability to operate in the micro-dimension of viruses? Comment: In the discipline of Yoga is noted the ability to become large or small.

(p209) Anyone with more access to even one more dimension than we have access to could evade our most carefully planned investigations indefinitely.

(p210) Modern brain capacity: 1300cc
Cro-magnon man: 1400cc

Baskop man (megroid [sic] race): 1800cc

The last two appeared quite suddenly.

(p210) Theory of Max H. Flindt attributes paradoxically rapid development of the human brain to interbreeding between primitive humanity and ETs.

According to Flindt, schizophrenia is caused by subconscious racial memory of the ET branch of the family tree, longing for home. Considerable differences between glandular and nervous systems between primitive humans and ETs would provide a basis for traumatic tension associated with regressed memory.

(p210) Our civilization has forgotten the existence of other intelligent beings in the universe.

(p211) The idea that Homo Sapiens is unique is becoming no longer tenable.
